YOUR PORTRAIT SESSION

WHAT WE CAPTURE...

A portrait session is a reminder of a point in time in your families life. I want you to look at your beautiful wall art and smile every time you see it, remembering that inquisitive look from your toddler, that quiet moment sharing secrets with their special teddy or the infectious laughter created by having fun and just being a kid.

These are the people in your life that matter most, I want you to remember these times fondly. Capturing your families true personality is what a portrait session is all about - I'd be honoured to create these memories for you.

YOUR PORTRAIT COLLECTION

INVESTING IN YOUR PHOTOGRAPHY...

If a family could only salvage one item while fleeing their burning home, most would choose their family portraits. Photos are priceless, celebrating and sharing the most precious moments of your life with the people you love most. We don't take this responsibility lightly.

We offer a range of collections to showcase your beautiful family.
Collection information and inclusions can be found in this brochure.

GETTING TO KNOW EACH OTHER...

The relationship you have with your family photographer is an important one. We would love to have a chat over the phone prior to your portrait session to find out what ideas you have for your portraits. It's nice to get an understanding about your family before we meet on the day,as well as the best location based on the time of year to use for your session, creating images you will fall in love with.
